Annual Index

First Quarter 1–40
Second Quarter 41–88
Third Quarter 89–128
Fourth Quarter 129–174

SUBJECT INDEX

BASE PLATES
Inconsistencies in Column Base Plate Design in the New AISC ASD Manual — *Ahmed and Kreps* 106
Design of Small Base Plates for Wide Flange Columns — *Thornton* 108
Design of Base Plates for Wide Flange Columns—A Concatenation of Methods — *Thornton* 173

BEAMS
Approximate Plastic Modulus of Wide Flange Beam Sections — *Gilsanz* 32
Allowable Bending Stress of Steel Pipes — *Chakrabarti* 33
LRFD Beam Tables for Structural Tubes — *Sputo* 111

BRACING
Notes on Bracing Design — *Wyczolkowski* 30

BRIDGES
Short Span Prestressed Steel Bridges — *Densford, Hendrick and Murray* 114
Behavior of a Two-Span Continuous Plate Girder Bridge Designed by the Alternate Load Factor Method — *Moore and Grubb* 132

BUCKLING
Flexural-Torsional Buckling and Its Implications for Steel Compression Member Design — *Zahn and Iwankiw* (4th Quarter, 1989)
Errata 127

COLUMNS
Beam-Columns
On Beam-Column Moment Amplification Factor — *Duan, Sohal and Chen* (4th Quarter, 1989)
Discussion:
Dumonteil 168
Duan, Sohal and Chen 171
Proposed Revision of the Equivalent Axial Load Method for LRFD Steel and Composite Beam-Column Design — *Uang, Wattar and Leet* 150

Stepped Columns
The In-Plane Stability of a Frame Containing Pin-Based Stepped Columns — *Fraser* 49

COMPOSITE DESIGN
Semi-Rigid Composite Connections for Gravity Loads — *Leon and Ammerman* 1
Unbraced Frames with Semi-Rigid Composite Connections — *Ammerman and Leon* 12
Proposed Revision to the Equivalent Axial Load Method for LRFD Steel and Composite Beam-Column Design — *Uang, Wattar and Leet* 150

COMPUTER SOLUTIONS
Electronic Spreadsheet Tools for Semi-Rigid Frames — *Ackroyd* 69
Automated Second-Order Elastic Analysis for Steel Space Frames — *Folse and Harris* 82

CONNECTIONS
Semi-Rigid Composite Connections for Gravity Loads — *Leon and Ammerman* 1
Unbraced Frames with Semi-Rigid Composite Connections — *Ammerman and Leon* 12
Behavior and Design of Flexibly-Connected Building Frames — *Gerstle and Ackroyd* 22
Performance of Large Seismic Moment Connections Under Cyclic Loads — *Popov and Tsai* (2nd Quarter, 1989)
Errata 37
Design of Connectors in Web-Flange Beam or Girder Splices — *Kulak and Green* 41
Practical Analysis of Semi-Rigid Frames — *Barakat and Chen* 54
Electronic Spreadsheet Tools for Semi-Rigid Frames — *Ackroyd* 69
Experimental Study of Gusseted Connections — *Gross* 89

Shear Tab
Design of Single Plate Shear Connections — *Astaneh, Call and McMullin* (1st Quarter, 1989)

Discussion:
Richard 121
Astaneh, Call and McMullin 122
American Institute of Steel Construction 126

EARTHQUAKE DESIGN
Performance of Large Seismic Moment Connections Under Cyclic Loads — *Popov and Tsai* (2nd Quarter, 1989)
Errata 37

ERECTION
Variation of Lift Load Distribution Due to Sling Length Tolerance — *Duerr* (3rd Quarter, 1989)
Errata 37

FIRE-RESISTANT CONSTRUCTION
A Method to Predict the Fire Resistance of Steel Building Columns — *Lie and Almand* 158

FRAMES
Unbraced Frames with Semi-Rigid Composite Connections — *Ammerman and Leon* 12
Behavior and Design of Flexibly-Connected Building Frames — *Gerstle and Ackroyd* 22
A Practical P-Delta Analysis Method of Type FR and PR Frames — *Lui* (3rd Quarter, 1989)
Discusson:
Carskaddan 34
Lui 34
Practical Analysis of Semi-Rigid Frames — *Barakat and Chen* 54
Electronic Spreadsheet Tools for Semi-Rigid Frames — *Ackroyd* 69

LOAD AND RESISTANCE FACTOR DESIGN
LRFD Aid for Tubeshaped Beams — *Siddiqui and Usman* 79
LRFD Beam Tables for Structural Tubes — *Sputo* 111
Proposed Revision of the Equivalent Axial Load Method for LRFD Steel and Composite Beam-Column Design — *Uang, Wattar and Leet* 150

MATERIAL
Material Considerations in Structural Steel Design — *Barsom* (3rd Quarter, 1989)
Discussion:
Stecich 36
Barsom 36
Hardness Testing of Thermal Cut Edges of Steel — *Wilson* 98

REINFORCING MEMBERS
Reinforcing Steel Members and the Effects of Welding — *Tide* 129

SPACE FRAMES
Automated Second-Order Elastic Analysis for Steel Space Frames — *Folse and Harris* 82

TUBULAR STRUCTURES
Allowable Bending Stress of Steel Pipes — *Chakrabarti* 33
LRFD Aid for Tubeshaped Beams — *Siddiqui and Usman* 79
LRFD Beam Tables for Structural Tubes — *Sputo* 111

AUTHOR INDEX

Ackroyd, Michael H.
Electronic Spreadsheet Tools for Semi-Rigid Frames 69
(see also Gerstle, Kurt H.)

Ahmed, Salahuddin and Robert R. Kreps
Inconsistencies in Column Base Plate Design in New AISC ASD Manual 106

Almand, K. H. (see Lie, T. T.)

American Institute of Steel Construction
Commentary: Design of Single Plate Shear Connections 126

Ammerman, Douglas J. and Roberto T. Leon
Unbraced Frames with Semi-Rigid Composite Connections 12
(see also Leon, Roberto T.)

Astaneh, A., S. C. Call and K. M. McMullin
Addendum/Closure: Design of Single Plate Shear Connections 122

Barakat, Munzer and Wai-Fah Chen
Practical Analysis of Semi-Rigid Frames 54

Barsom, J.
Addendum/Closure: Material Considerations in Structural Steel Design 36

Call, S. C. (see Astaneh, A.)

Carskaddan, Philip S.
Discussion: A Practical P-Delta Analysis Method for Type FR and PR Frames 34

Chakrabarti, S. K.
Allowable Bending Stress of Steel Pipes 33

Chen, Wai-Fah (see Barakat, Munzer)
(see also Duan, Lian)

Densford, Thomas A., Thomas L. Hendrick and Thomas M. Murray
Short Span Prestressed Steel Bridges 114

Duan, Lian, Iqbal S. Sohal and Wai-Fah Chen
Addendum/Closure: On Beam Column Moment Amplification Factor 171

Dumonteil, Pierre
Discussion: On Beam-Column Moment Amplification Factor 168

Folse, Michael D. and Barton H. Harris
Automated Second-Order Elastic Analysis for Steel Space Frames 82

Fraser, Donald J.
The In-Plane Stability of a Frame Containing Pin-Based Stepped Columns 49

Gerstle, Kurt H. and Michael H. Ackroyd
Behavior and Design of Flexibly-Connected Building Frames 22

Gilsanz, Ramon
Approximate Plastic Modulus of Wide Flange Beam Sections 32

Green, Deborah L. (see Kulak, Geoffrey L.)

Gross, John L.
Experimental Study of Gusseted Connections 89

Grubb, Michael A. (see Moore, Mark)

Harris, Barton H. (see Folse, Michael D.)

Hendrick, Thomas L. (see Densford, Thomas A.)

Kreps, Robert R. (see Ahmed, Salahuddin)

Kulak, Geoffrey L. and Deborah L. Green
Design of Connectors in Web-Flange Beam or Girder Splices 41

Leet, Kenneth M. (see Uang, Chia-Ming)

Leon, Roberto T. and Douglas J. Ammerman
Semi-Rigid Composite Connections for Gravity Loads 1
(see also Ammerman, Douglas J.)

Lie, T. T. and K. H. Almand
A Method to Predict the Fire Resistance of Steel Building Columns 158

Lui, Eric M.
Addendum/Closure: A Practical P-Delta Analysis Method for Type FR and PR Frames 34

McMullin, K. M. (see Astaneh, A.)

Moore, Mark and Michael A. Grubb
Behavior of a Two-Span Continuous Plate Girder Bridge Designed by the Alternate Load Factor Method 132

Murray, Thomas M. (see Densford, Thomas A.)

Richard, Ralph M.
Discussion: Design of Single Plate Shear Connections 121

Siddiqui, Faruq M. A. and Ali Usman
LRFD Aid for Tubeshaped Beams 79

Sohal, Iqbal S. (see Duan, Lian)

Sputo, Thomas
LRFD Beam Tables for Structural Tubes 111

Stecich, J.
Discussion: Material Considerations in Structural Steel Design 36

Thornton, W. A.
Design of Small Base Plates for Wide Flange Columns 108
Design of Base Plates for Wide Flange Columns—A Concatenation of Methods 173

Tide, R. H. R.
Reinforcing Steel Members and the Effects of Welding 129

Uang, Chia-Ming, Samer W. Wattar and Kenneth M. Leet
Proposed Revision of the Equivalent Axial Load Method for LRFD Steel and Composite Beam-Column Design 150

Usman, Ali (see Siddiqui, Faruq M. A.)

Wattar, Samer W. (see Uang, Chia-Ming)

Wilson, Alexander D.
Hardness Testing of Thermal Cut Edges of Steel 98

Wyczolkowski, Adam
Notes on Bracing Design 30
